Sir:

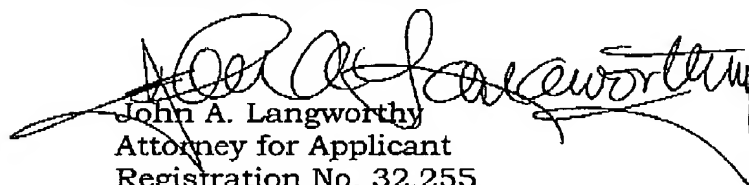

Applicant submits the following comment on the
Examiner's statement of reasons for allowance:

The Examiner refers to "the claimed stabilized α -
AlPO₄". The allowed claims, however, make no reference to the
alpha phase, and no limitation in respect of the alpha phase
should therefore be read into the claims.

In addition, as recited, for example, in Claims 19, 23,
28 and 36, all claimed materials have uses other than as a
piezoelectrical material.
